From student_a.pdf:	From student_b.pdf:
The introduction provides background information on the topic and establishes the context for the study.	The introduction provides background information on the topic and establishes the context for the study.

introduction provides background information on the topic and establishes the context for the study.

Report Notes

This report was generated by the Semantic Plagiarism Detection System. Similarity scores are computed using transformer embeddings (all-MiniLM-L6-v2) and cosine similarity. High similarity scores may indicate plagiarism, but human review is recommended for final determination.

Threshold used: 59.0%. Pairs with similarity below this threshold are not shown.
